1.0 Description of the Service

Physician fluoride varnish services are defined as preventive procedures provided by or under the supervision of a physician. This includes caries screening, recording of notable findings in the oral cavity, preventive oral health and dietary counseling, and administration of topical fluoride varnish. Such services shall maintain a high standard of quality and shall be within the reasonable limits of services customarily available and provided to most persons in the community with the limitations hereinafter specified. **Only the procedure codes listed in this policy are covered under the N.C. Medicaid Physician Fluoride Varnish Program**.

The Division of Medical Assistance (DMA) has adopted procedure codes and descriptions as defined in the most recent edition of *Current Dental Terminology* (CDT-2007/2008). CDT-2007/2008 (including procedure codes, descriptions, and other data) is copyrighted by the American Dental Association. © 2006 American Dental Association. All rights reserved. 2.0 Eligible Recipients

2.1 General Provisions

Medicaid recipients may have service restrictions due to their eligibility category that would make them ineligible for services as described in this policy.

2.2 Limitations

Refer to **Section 5.2, Procedure Codes and Limitations,** for eligibility limitations for individual procedure codes.

2.3 EPSDT Special Provision: Exception to Policy Limitations for Recipients under 21 Years of Age

42 U.S.C. § 1396d(r) [1905(r) of the Social Security Act]

Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) is a federal Medicaid requirement that requires the state Medicaid agency to cover services, products, or procedures for Medicaid recipients under 21 years of age **if** the service is **medically necessary health care** to correct or ameliorate a defect, physical or mental illness, or a condition [health problem] identified through a screening examination****** (includes any evaluation by a physician or other licensed clinician). This means EPSDT covers most of the medical or remedial care a child needs to improve or maintain his/her health in the best condition possible, compensate for a health problem, prevent it from worsening, or prevent the development of additional health problems. Medically necessary services will be provided in the most economic mode, as long as the treatment made available is similarly efficacious to the service requested by the recipient's physician, therapist, or other licensed practitioner; the determination process does not delay the delivery of the needed service; and the determination does not limit the recipient's right to a free choice of providers.

EPSDT does not require the state Medicaid agency to provide any service, product, or procedure

a. that is unsafe, ineffective, or experimental/investigational.

b. that is not medical in nature or not generally recognized as an accepted method of medical practice or treatment.

Service limitations on scope, amount, duration, frequency, location of service, and/or other specific criteria described in clinical coverage policies may be exceeded or may not apply as long as the provider's documentation shows that the requested service is medically necessary "to correct or ameliorate a defect, physical or mental illness, or a condition" [health problem]; that is, provider documentation shows how the service, product, or procedure will correct or improve or maintain the recipient's health in the best condition possible, compensate for a health problem, prevent it from worsening, or prevent the development of additional health problems.

****EPSDT and Prior Approval Requirements**

a. If the service, product, or procedure requires prior approval, the fact that the recipient is under 21 years of age does **NOT** eliminate the requirement for prior approval.

b. IMPORTANT ADDITIONAL INFORMATION about EPSDT and prior approval is found in the Basic Medicaid Billing Guide, sections 2 and 6, and on the EPSDT provider page. The Web addresses are specified below.

***Basic Medicaid Billing Guide*:** http://www.ncdhhs.gov/dma/medbillcaguide.htm

EPSDT provider page: http://www.ncdhhs.gov/dma/EPSDTprovider.htm

3.0 When the Service Is Covered

IMPORTANT NOTE: EPSDT allows a recipient less than 21 years of age to receive services in excess of the limitations or restrictions below and without meeting the specific criteria in this section when such services are **medically necessary health care services** to correct or ameliorate a defect, physical or mental illness, or a condition [health problem]; that is, documentation shows how the service, product, or procedure will correct or improve or maintain the recipient's health in the best condition possible, compensate for a health problem, prevent it from worsening, or prevent the development of additional health problems.

EPSDT DOES NOT ELIMINATE THE REQUIREMENT FOR PRIOR APPROVAL IF PRIOR APPROVAL IS REQUIRED. For additional information about EPSDT and prior approval requirements, see **Section 2.0** of this policy.

3.1 General Criteria

Medicaid covers physician fluoride varnish when it is medically necessary and

a. the procedure is individualized, specific, and consistent with symptoms or confirmed diagnosis of the illness or injury under treatment, and not in excess of the recipient's needs.

b. the procedure can be safely furnished, and for which no equally effective and more conservative or less costly treatment is available statewide.

c. the procedure is furnished in a manner not primarily intended for the convenience of the recipient, the recipient's caretaker, or the provider.

3.2 Specific Criteria

Medicaid covers a total of six oral screening packages (examination, preventive oral health and dietary counseling, and application of fluoride varnish) per patient from the time of tooth eruption until the child is 3½ years of age. These services can be provided at well-child checkups, during a sick visit, or at a separately scheduled visit.

Example of Oral Screening Preventive Package Visits

Well-Child Visit (months)	Procedure Performed
6	Yes (if teeth are erupted)
9	Yes (if teeth are erupted)
12	Yes
18	Yes
24	Yes
36	Yes

Begin providing the services as soon as the first teeth erupt. If services are provided at the 6- or 9-month well-child checkup, providers must wait at least 60 days before providing the service again. Ideally, the service should be performed every 3 to 6 months; however, flexibility is allowed to permit scheduling in conjunction with visits for other health services. Please note that the service can be provided until the recipient reaches age 3½ (or through age 41 months) since typically the 36-month well-child visit does not occur until after the recipient's third birthday.

4.0 When the Service Is Not Covered

IMPORTANT NOTE: EPSDT allows a recipient less than 21 years of age to receive services in excess of the limitations or restrictions below and without meeting the specific criteria in this section when such services are **medically necessary health care services** to correct or ameliorate a defect, physical or mental illness, or a condition [health problem]; that is, documentation shows how the service, product, or procedure will correct or improve or maintain the recipient's health in the best condition possible, compensate for a health problem, prevent it from worsening, or prevent the development of additional health problems.

EPSDT DOES NOT ELIMINATE THE REQUIREMENT FOR PRIOR APPROVAL IF PRIOR APPROVAL IS REQUIRED. For additional information about EPSDT and prior approval requirements, see **Section 2.0** of this policy.

4.1 General Criteria

Physician fluoride varnish is not covered when

a. the recipient does not meet the eligibility requirements listed in **Section 2.0**;
b. the recipient does not meet the medical necessity criteria listed in **Section 3.0**;
c. the procedure duplicates another provider's procedure;
d. the procedure is experimental, investigational, or part of a clinical trial; or
e. the criteria specified in this policy have not been met.

5.0 Requirements for and Limitations on Coverage

IMPORTANT NOTE: EPSDT allows a recipient less than 21 years of age to receive services in excess of the limitations or restrictions below and without meeting the specific criteria in this section when such services are **medically necessary health care services** to correct or ameliorate a defect, physical or mental illness, or a condition [health problem]; that is, documentation shows how the service, product, or procedure will correct or improve or maintain the recipient's health in the best condition possible, compensate for a health problem, prevent it from worsening, or prevent the development of additional health problems.

EPSDT DOES NOT ELIMINATE THE REQUIREMENT FOR PRIOR APPROVAL IF PRIOR APPROVAL IS REQUIRED. For additional information about EPSDT and prior approval requirements, see **Section 2.0** of this policy.

5.1 American Dental Association Guidelines

Only topical fluoride varnish materials professionally applied as recommended by the guidelines of the American Dental Association Council on Scientific Affairs are accepted for use in the dental care of Medicaid recipients. Specific use of these materials must follow the ADA Council on Scientific Affairs guidelines.

5.2 Prior Approval

Prior approval is not required.

5.3 Procedure Codes and Limitations

By State legislative authority, DMA applies service limitations to ADA procedure codes as they relate to individual recipients. These service limitations are applied without modification of the ADA procedure description. Limitations that apply to an entire category of service are described at the beginning of the appropriate subsection. Limitations that apply to an individual procedure code are indicated by an asterisk (*) beneath the description of that code. Claims for services that fall outside these limitations will be denied unless special approval is granted for services deemed medically necessary for a Medicaid recipient under age 21. Refer to **Section 5.2.3 Request for Special Approval of a Non-Covered Service or Service Outside the Policy Limitations**.

5.3.1 Diagnostic Procedure: Clinical Oral Evaluation

Code	Description
D0145	Oral evaluation for a patient under three years of age and counseling with primary caregiver * **replaced procedure codes D0150, D0120, and D1330 effective January 1, 2007** * includes early caries screening, evaluation of caries susceptibility, and recording of other notable findings in the oral cavity * includes preventive oral health and dietary counseling with the primary caregiver * includes prescribing a fluoride supplement, if needed * must be billed in conjunction with D1206 * limited to recipients under 3½ years of age * allowed once every 60 days * limited to six times prior to the recipient reaching 3½ years of age * exempt from third party liability

5.3.2 Preventive Procedure: Topical Fluoride Treatment (Office Procedure)

Topical fluoride **must** be applied to **all** teeth erupted on the date of service. Medicaid will only allow reimbursement for this procedure when teeth are present and fluoride varnish is applied to the teeth.

Code	Description
D1206	Topical fluoride varnish; therapeutic application for moderate to high caries risk patients * **replaced procedure code D1203 effective January 1, 2007** * must be billed in conjunction with D0145 * limited to recipients under 3½ years of age * allowed once every 60 days * limited to six times prior to the recipient reaching 3½ years of age * exempt from third party liability

5.3.3 Request for Special Approval of a Non-Covered Service or Service Outside the Policy Limitations

Providers may request special approval for a service that is non-covered by the N.C. Medicaid program or falls outside the limitations stated in this policy, if that service is deemed medically necessary for a Medicaid recipient under age 21. **All such requests must be submitted in writing prior to delivery of the service.** The request must include

a. a completed CMS-1500 claim form,

b. any materials needed to document medical necessity (e.g., radiographs, photographs), and

c. the completed Non-Covered State Medicaid Plan Services Request Form (for recipients under 21 years of age) or a cover letter that documents how the service will correct or ameliorate a defect, physical or mental illness, or a condition [health problem].

This includes documentation about how the service, product, or procedure will correct or ameliorate (improve or maintain the recipient's health in the best condition possible, compensate for a health problem, prevent it from worsening, or prevent the development of additional health problems) as well as the effectiveness and safety of the service, product, or procedure.

Requests should be mailed to

Assistant Director
Clinical Policy and Programs
Division of Medical Assistance
2501 Mail Service Center
Raleigh, NC 27699-2501
FAX: 919-715-7679

If the procedure(s) receives special approval and the recipient is Medicaid-eligible on the date the service is rendered, the provider then can file for reimbursement.

Note: A copy of the Non-Covered State Medicaid Plan Services Request Form (for recipients under 21 years of age) can be found on the EPSDT provider page. The Web address is specified below.

EPSDT provider page: http://www.ncdhhs.gov/dma/EPSDTprovider.htm

6.0 Providers Eligible to Bill for the Service

6.1 Conditions of Participation

Licensed physicians who meet Medicaid's qualifications for participation and are currently enrolled with the N.C. Medicaid program are eligible to bill for physician fluoride varnish when this service is within the scope of their practice. Designated physician extenders (physician assistant, nurse practitioner, registered nurse, and licensed practical nurse) who meet Medicaid's training requirement can render this service in eligible physicians' offices. All providers participating in the Medicaid program must provide services in accordance with the rules and regulations of the Medicaid program. Conditions of participation are made available at the time of provider enrollment.

6.2 Provider Training and Continuing Education

Provider training is required as a condition of participation. Providers must receive Medicaid recognized training to prepare for the delivery of this service. Only providers who have been trained are allowed to render the services and submit claims for payment.

7.0 Additional Requirements

7.1 Oral Screening Requirements

a. Early caries screening and detection of notable findings (obvious pathology of hard and soft tissues) in the oral cavity using a dental mirror and directed light.

b. Counseling and educational materials on good oral hygiene practices and diet/nutrition for children.

c. Prescribing a fluoride supplement, if indicated, per the guidelines of the American Association of Pediatrics: http://aappolicy.aappublications.org/cgi/content/full/pediatrics;111/5/1113

Note: It is critical to have the recipient's drinking water tested for fluoride content if the level of fluoride in the source of drinking water is unknown. Providers should refer the recipient to a dentist for continued treatment at the appropriate age based on the recipient's need for dental services.

d. Application of the fluoride varnish to all erupted primary teeth, beginning at tooth eruption until the recipient is 3½ years of age.

e. Documentation in the patient's medical chart should include a record of the following:

1. an oral evaluation and any notable findings
2. preventive oral health and dietary counseling with the primary caregiver
3. application of fluoride varnish
4. referral to a dentist, if appropriate

7.2 Place of Service

The oral screening package is allowed in the physician's office, health department clinics, Federally Qualified Health Centers (FQHC), Rural Health Clinics (RHC), and the recipient's residence.

7.3 Application of the Fluoride Varnish

Fluoride varnish is practical, safe, and easy to apply to the teeth of infants and very young children and is extremely useful in the prevention of early childhood caries. Teeth should be wiped with a 2" x 2" gauze pad prior to fluoride varnish application. The varnish is then applied in a thin layer to all surfaces of the teeth using a disposable brush.

7.4 Medical Record Documentation

Providers are responsible for maintaining all financial, medical and other records necessary to fully disclose the nature and extent of services billed to Medicaid. These records must be retained for a period of not less than five years from the date of service, unless a longer retention period is required by applicable federal or state law, regulations or agreements. The provider must furnish upon request appropriate documentation, including recipient records, supporting material, and any information regarding payments claimed by the Provider, for review by the DMA, its agents, the Centers for Medicare and Medicaid, the State Medicaid Fraud Control Unit of the Attorney General's Office, and/or other entities as required by law. Providers cannot charge for records requested by Medicaid.

PATIENT AND INSURED INFORMATION — CARRIER

PHYSICIAN OR SUPPLIER INFORMATION

NUCC Instruction Manual available at: www.nucc.org

APPROVED OMB-0938-0999 FORM CMS-1500 (08-05)

BECAUSE THIS FORM IS USED BY VARIOUS GOVERNMENT AND PRIVATE HEALTH PROGRAMS, SEE SEPARATE INSTRUCTIONS ISSUED BY APPLICABLE PROGRAMS.

NOTICE: Any person who knowingly files a statement of claim containing any misrepresentation or any false, incomplete or misleading information may be guilty of a criminal act punishable under law and may be subject to civil penalties.

REFERS TO GOVERNMENT PROGRAMS ONLY

MEDICARE AND CHAMPUS PAYMENTS: A patient's signature requests that payment be made and authorizes release of any information necessary to process the claim and certifies that the information provided in Blocks 1 through 12 is true, accurate and complete. In the case of a Medicare claim, the patient's signature authorizes any entity to release to Medicare medical and nonmedical information, including employment status, and whether the person has employer group health insurance, liability, no-fault, worker's compensation or other insurance which is responsible to pay for the services for which the Medicare claim is made. See 42 CFR 411.24(a). If item 9 is completed, the patient's signature authorizes release of the information to the health plan or agency shown. In Medicare assigned or CHAMPUS participation cases, the physician agrees to accept the charge determination of the Medicare carrier or CHAMPUS fiscal intermediary as the full charge, and the patient is responsible only for the deductible, coinsurance and noncovered services. Coinsurance and the deductible are based upon the charge determination of the Medicare carrier or CHAMPUS fiscal intermediary if this is less than the charge submitted. CHAMPUS is not a health insurance program but makes payment for health benefits provided through certain affiliations with the Uniformed Services. Information on the patient's sponsor should be provided in those items captioned in "Insured"; i.e., items 1a, 4, 6, 7, 9, and 11.

BLACK LUNG AND FECA CLAIMS

The provider agrees to accept the amount paid by the Government as payment in full. See Black Lung and FECA instructions regarding required procedure and diagnosis coding systems.

SIGNATURE OF PHYSICIAN OR SUPPLIER (MEDICARE, CHAMPUS, FECA AND BLACK LUNG)

I certify that the services shown on this form were medically indicated and necessary for the health of the patient and were personally furnished by me or were furnished incident to my professional service by my employee under my immediate personal supervision, except as otherwise expressly permitted by Medicare or CHAMPUS regulations.

For services to be considered as "incident" to a physician's professional service, 1) they must be rendered under the physician's immediate personal supervision by his/her employee, 2) they must be an integral, although incidental part of a covered physician's service, 3) they must be of kinds commonly furnished in physician's offices, and 4) the services of nonphysicians must be included on the physician's bills.

For CHAMPUS claims, I further certify that I (or any employee) who rendered services am not an active duty member of the Uniformed Services or a civilian employee of the United States Government or a contract employee of the United States Government, either civilian or military (refer to 5 USC 5536). For Black-Lung claims, I further certify that the services performed were for a Black Lung-related disorder.

No Part B Medicare benefits may be paid unless this form is received as required by existing law and regulations (42 CFR 424.32).

NOTICE: Any one who misrepresents or falsifies essential information to receive payment from Federal funds requested by this form may upon conviction be subject to fine and imprisonment under applicable Federal laws.

NOTICE TO PATIENT ABOUT THE COLLECTION AND USE OF MEDICARE, CHAMPUS, FECA, AND BLACK LUNG INFORMATION
(PRIVACY ACT STATEMENT)

We are authorized by CMS, CHAMPUS and OWCP to ask you for information needed in the administration of the Medicare, CHAMPUS, FECA, and Black Lung programs. Authority to collect information is in section 205(a), 1862, 1872 and 1874 of the Social Security Act as amended, 42 CFR 411.24(a) and 424.5(a) (6), and 44 USC 3101;41 CFR 101 et seq and 10 USC 1079 and 1086; 5 USC 8101 et seq; and 30 USC 901 et seq; 38 USC 613; E.O. 9397.

The information we obtain to complete claims under these programs is used to identify you and to determine your eligibility. It is also used to decide if the services and supplies you received are covered by these programs and to insure that proper payment is made.

The information may also be given to other providers of services, carriers, intermediaries, medical review boards, health plans, and other organizations or Federal agencies, for the effective administration of Federal provisions that require other third parties payers to pay primary to Federal program, and as otherwise necessary to administer these programs. For example, it may be necessary to disclose information about the benefits you have used to a hospital or doctor. Additional disclosures are made through routine uses for information contained in systems of records.

FOR MEDICARE CLAIMS: See the notice modifying system No. 09-70-0501, titled, 'Carrier Medicare Claims Record,' published in the Federal Register, Vol. 55 No. 177, page 37549, Wed. Sept. 12, 1990, or as updated and republished.

FOR OWCP CLAIMS: Department of Labor, Privacy Act of 1974, "Republication of Notice of Systems of Records," Federal Register Vol. 55 No. 40, Wed Feb. 28, 1990, See ESA-5, ESA-6, ESA-12, ESA-13, ESA-30, or as updated and republished.

FOR CHAMPUS CLAIMS: PRINCIPLE PURPOSE(S): To evaluate eligibility for medical care provided by civilian sources and to issue payment upon establishment of eligibility and determination that the services/supplies received are authorized by law.

ROUTINE USE(S): Information from claims and related documents may be given to the Dept. of Veterans Affairs, the Dept. of Health and Human Services and/or the Dept. of Transportation consistent with their statutory administrative responsibilities under CHAMPUS/CHAMPVA; to the Dept. of Justice for representation of the Secretary of Defense in civil actions; to the Internal Revenue Service, private collection agencies, and consumer reporting agencies in connection with recoupment claims; and to Congressional Offices in response to inquiries made at the request of the person to whom a record pertains. Appropriate disclosures may be made to other federal, state, local, foreign government agencies, private business entities, and individual providers of care, on matters relating to entitlement, claims adjudication, fraud, program abuse, utilization review, quality assurance, peer review, program integrity, third-party liability, coordination of benefits, and civil and criminal litigation related to the operation of CHAMPUS.

DISCLOSURES: Voluntary; however, failure to provide information will result in delay in payment or may result in denial of claim. With the one exception discussed below, there are no penalties under these programs for refusing to supply information. However, failure to furnish information regarding the medical services rendered or the amount charged would prevent payment of claims under these programs. Failure to furnish any other information, such as name or claim number, would delay payment of the claim. Failure to provide medical information under FECA could be deemed an obstruction.

It is mandatory that you tell us if you know that another party is responsible for paying for your treatment. Section 1128B of the Social Security Act and 31 USC 3801-3812 provide penalties for withholding this information.

You should be aware that P.L. 100-503, the "Computer Matching and Privacy Protection Act of 1988", permits the government to verify information by way of computer matches.

MEDICAID PAYMENTS (PROVIDER CERTIFICATION)

I hereby agree to keep such records as are necessary to disclose fully the extent of services provided to individuals under the State's Title XIX plan and to furnish information regarding any payments claimed for providing such services as the State Agency or Dept. of Health and Human Services may request.

I further agree to accept, as payment in full, the amount paid by the Medicaid program for those claims submitted for payment under that program, with the exception of authorized deductible, coinsurance, co-payment or similar cost-sharing charge.

SIGNATURE OF PHYSICIAN (OR SUPPLIER): I certify that the services listed above were medically indicated and necessary to the health of this patient and were personally furnished by me or my employee under my personal direction.

NOTICE: This is to certify that the foregoing information is true, accurate and complete. I understand that payment and satisfaction of this claim will be from Federal and State funds, and that any false claims, statements, or documents, or concealment of a material fact, may be prosecuted under applicable Federal or State laws.
